

Bengt Dahlgren AB, GreenBuilding Endorser

- One of Sweden's largest technical consultants in
 - HVAC
 - Energy & Environment
 - Building Management Systems
 - Fire engineering & Risk Management
 - Facilities Management
- 300 co-workers each with a genuine interest for energy and environmental issues
- Having many years of experience in energy and environmental issues

The progress toward the Green Building Award started with

Kv Kaggen in Malmö

Kv Kaggen
- requires 25% less energy
than other similar newly
constructed office building

The observatory in Stockholm

Observatory in Stockholm
Here we were able to
reduce energy use by 78 %

There is a great interest for GreenBuilding in Sweden

- We have helped to design and build *MANY* new and more energy efficient Buildings and with the refurbishment of existing structures
- We provide educational courses tailored toward GreenBuilding requirements
